Grupa Azoty warns against misleading advertisements

Grupa Azoty urgently advises caution regarding fraudulent video ads circulating online. This deceptive online content exploits Grupa Azoty's name to lure internet users into clicking on links, falsely promising significant monetary rewards. Particularly misleading is the claim: "Poles earn from PLN 16,000 with Grupa Azoty." These ads also improperly display Grupa Azoty's logo and feature images of select Company facilities.

Please be aware that the usage of Grupa Azoty's logos and associated photographs in these ads is unauthorised and illicit. The Company has alerted the competent authorities about the scam, which is likely intended to extract personal information from unsuspecting users.
